

CONNECTING

Connecting Diagram WLAN-RGBW-LED Controller (V3):

Technical data:

- Input voltage: 10,8 – 12V DC
- Power: 4A x 4 channels = Max 16A
- Max. output: 192W
- Temperature range: from -20°C to +60°C
- Dimensions (L x W x H): 83 x 63 x 17 mm
- Operating range to router (network) or smartphone (stand-alone operation): max. 30 metres

colour of the cable	Controller
red	R
green	G
blue	B
white	WW
black	V+
free	CW

Installation of the WiFi controller shall be done in a suitable place in a switch cabinet or a flush-mounted socket.

Please go to www.adeco.de/en/manuals for a download of the operating instructions for the WiFi controller.

Note: Installation and connection must be done only by a qualified electrician.

The elegant way of expressing your own style.
